- ✓ **To make a difference.** Working for a nonprofit, you make a difference in the community that we serve.

Drivers at the Epilepsy Foundation of Minnesota collect donations of used clothing and household items in a light truck supplied by the organization. During a typical day you are generally handling bags and boxes in 20-30 pound increments, loading into a truck an average total of 3,000-5,000 lbs of goods per day and unloading that same amount. You can expect to move in and out of your truck 80-120 times per day. As with all driving jobs, you will occasionally work in adverse weather conditions such as rain, heat and snow.
